

Amendments to the Specification:

Please amend the specification as follows:

Please replace the third full paragraph on page 2, lines 20-25, with the following rewritten paragraph:

The step of extracting the still image contained in the moving image information may comprise the steps of: extracting a still image having a moving ~~rate~~ ratio not more than a predetermined value of an image contained in the moving image information; and storing the extracted still image in a memory.

Please replace the first full paragraph on page 4, lines 3-7, with the following rewritten paragraph:

Note that the still image extraction unit may comprise an image moving ~~rate~~ ratio discrimination unit for extracting a still image having a moving ~~rate~~ ratio not more than a predetermined value of an image contained in the moving image information, and a memory for storing the extracted still image.

Please replace the fourth full paragraph on page 4, lines 24-28, with the following rewritten paragraph:

The still image extraction unit may comprise an image moving ~~rate~~ ratio discrimination unit for extracting a still image having a moving ~~rate~~ ratio not more than a predetermined value of an image contained in the moving image information, and a memory for storing the extracted still image.
